- ✓ Data-Driven Excellence

ABOUT US

Established in 2018, GData Technology is at the forefront of healthcare management solutions. Our flagship product, **DoctorLive**, stands as a testament to our commitment to excellence. Meticulously crafted through extensive case studies and insights from a collaborative team of tech experts, researchers, and healthcare professionals, DoctorLive is an innovative creation that redefines healthcare management.

A comprehensive, all-in-one solution for healthcare institutions, DoctorLive seamlessly integrates the daily operations of all departments – from appointment scheduling to discharge and beyond. Operating on a robust cloud-based platform, our software harmonizes every aspect of healthcare administration, simplifying complexities and optimizing efficiency.

Specifically tailored to meet the unique needs of hospitals and clinics, our dedication extends beyond technology. We recognize the importance of addressing the distinctive challenges faced by healthcare providers. With DoctorLive, we aim not only to meet but exceed these challenges, ensuring a professional and efficient healthcare management experience.

VISION & MISSION

Vision

Simplify healthcare management in India, aligning technology seamlessly with care for enhanced efficiency and effectiveness.

Mission

Identify critical gaps, work towards comprehensive healthcare solutions, employing technology strategically for impactful advancements

WHY NOT DOCTOR LIVE?

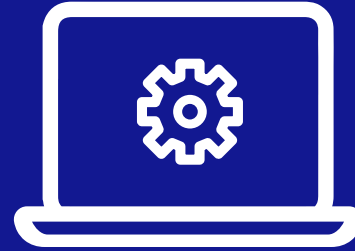

Explore what sets us apart

Discover the features that make us your preferred choice in healthcare management.

Simplified UI

Streamline your experience, reduce complexity, and boost productivity with auto - suggestions and optimizations tailored for seamless user interaction.

Security & Data Privacy

Trust in a highly secured, HIPAA-compliant system with robust encryption, ensuring the utmost protection for your sensitive data.

Scalable & Customizable

Tailor the system to your unique needs. Our solution scales effortlessly, adapting to your growing requirements

Advanced Reporting Analytics

Empower decision-making with advanced reports for each department, providing invaluable insights and analytics-driven strategies.

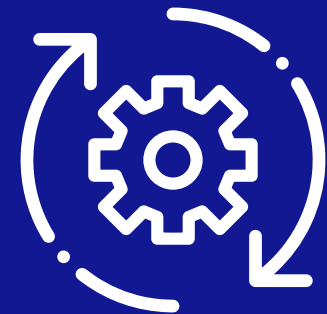

Support & Continuous Updates

Experience prompt support from our dedicated team, with a robust support system in place. Benefit from continuous updates and enhancements to keep your system at its best.

Affordable Cloud Solutions

Enjoy a feature-rich application at an affordable price, minimizing on-premise setup costs for servers and networking.

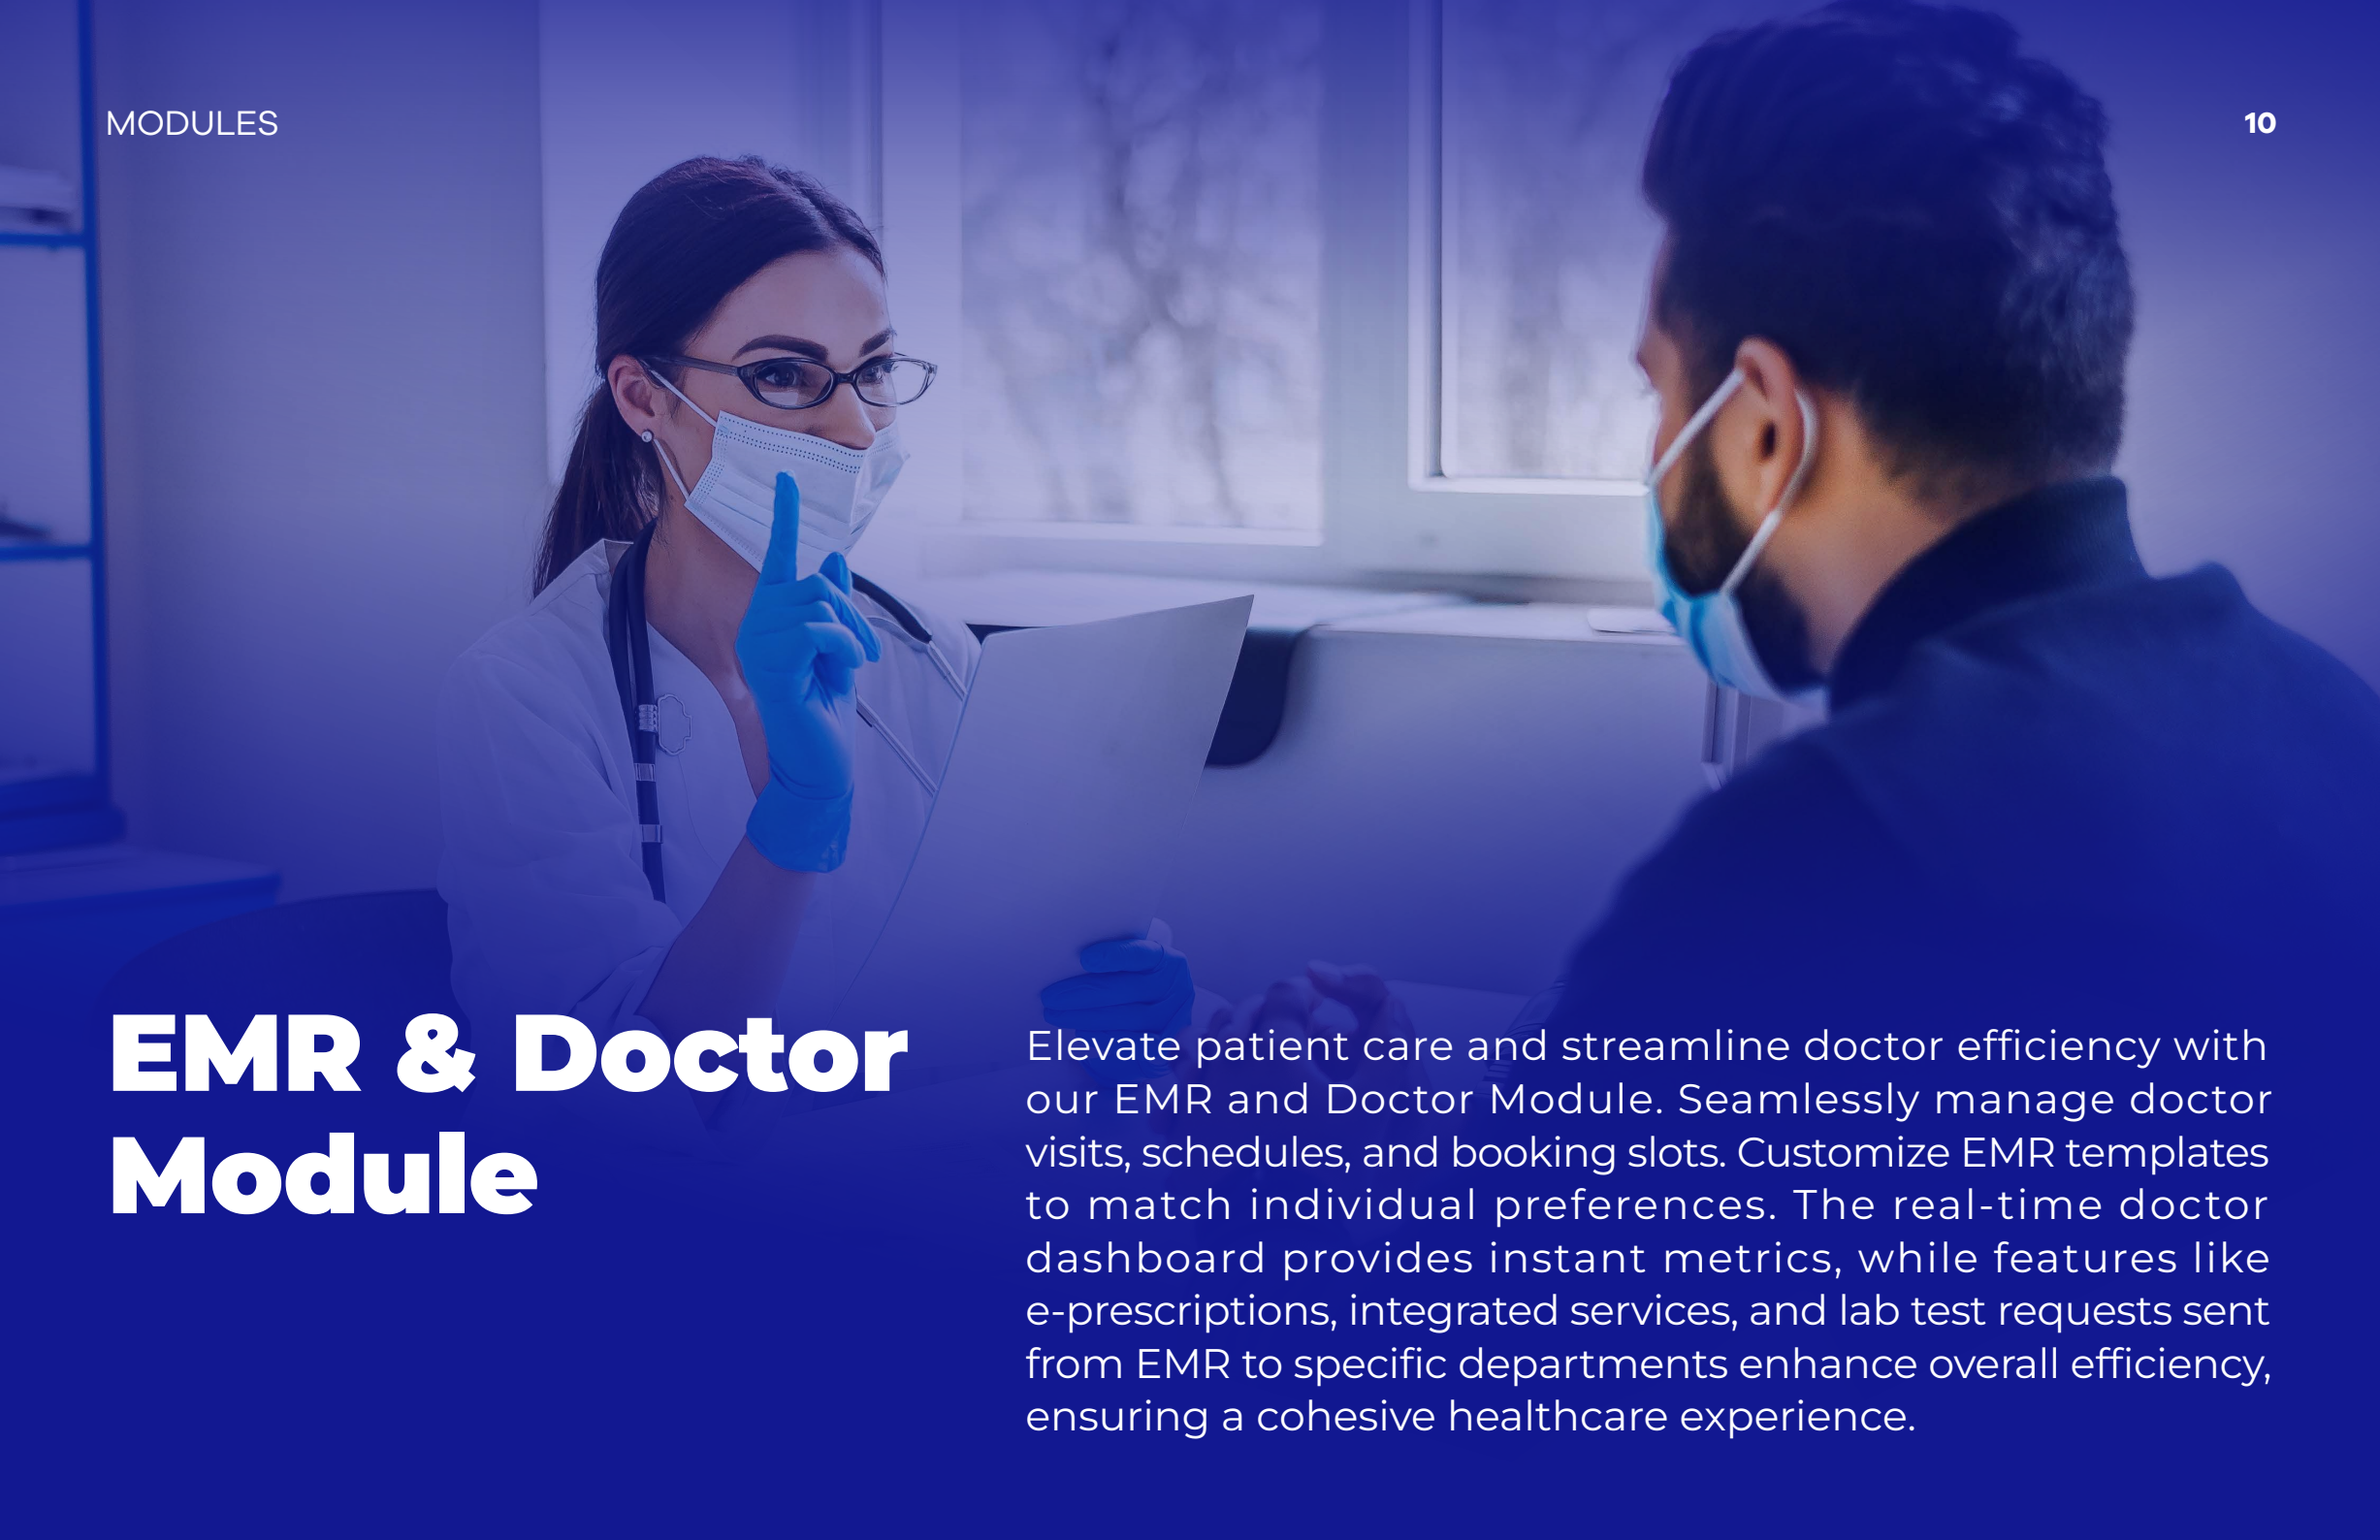

ALL IN ONE TOOLKIT

FOR YOUR SEAMLESS
OPERATIONS

OPD Management with Doctor Booking

Optimize outpatient services with our comprehensive OPD Management system, now including seamless doctor booking. Streamline patient registration, simplify billing, and facilitate efficient doctor scheduling. Monitor patient status in real-time and access detailed reports for comprehensive analytics, empowering strategic planning and improved clinic operations.

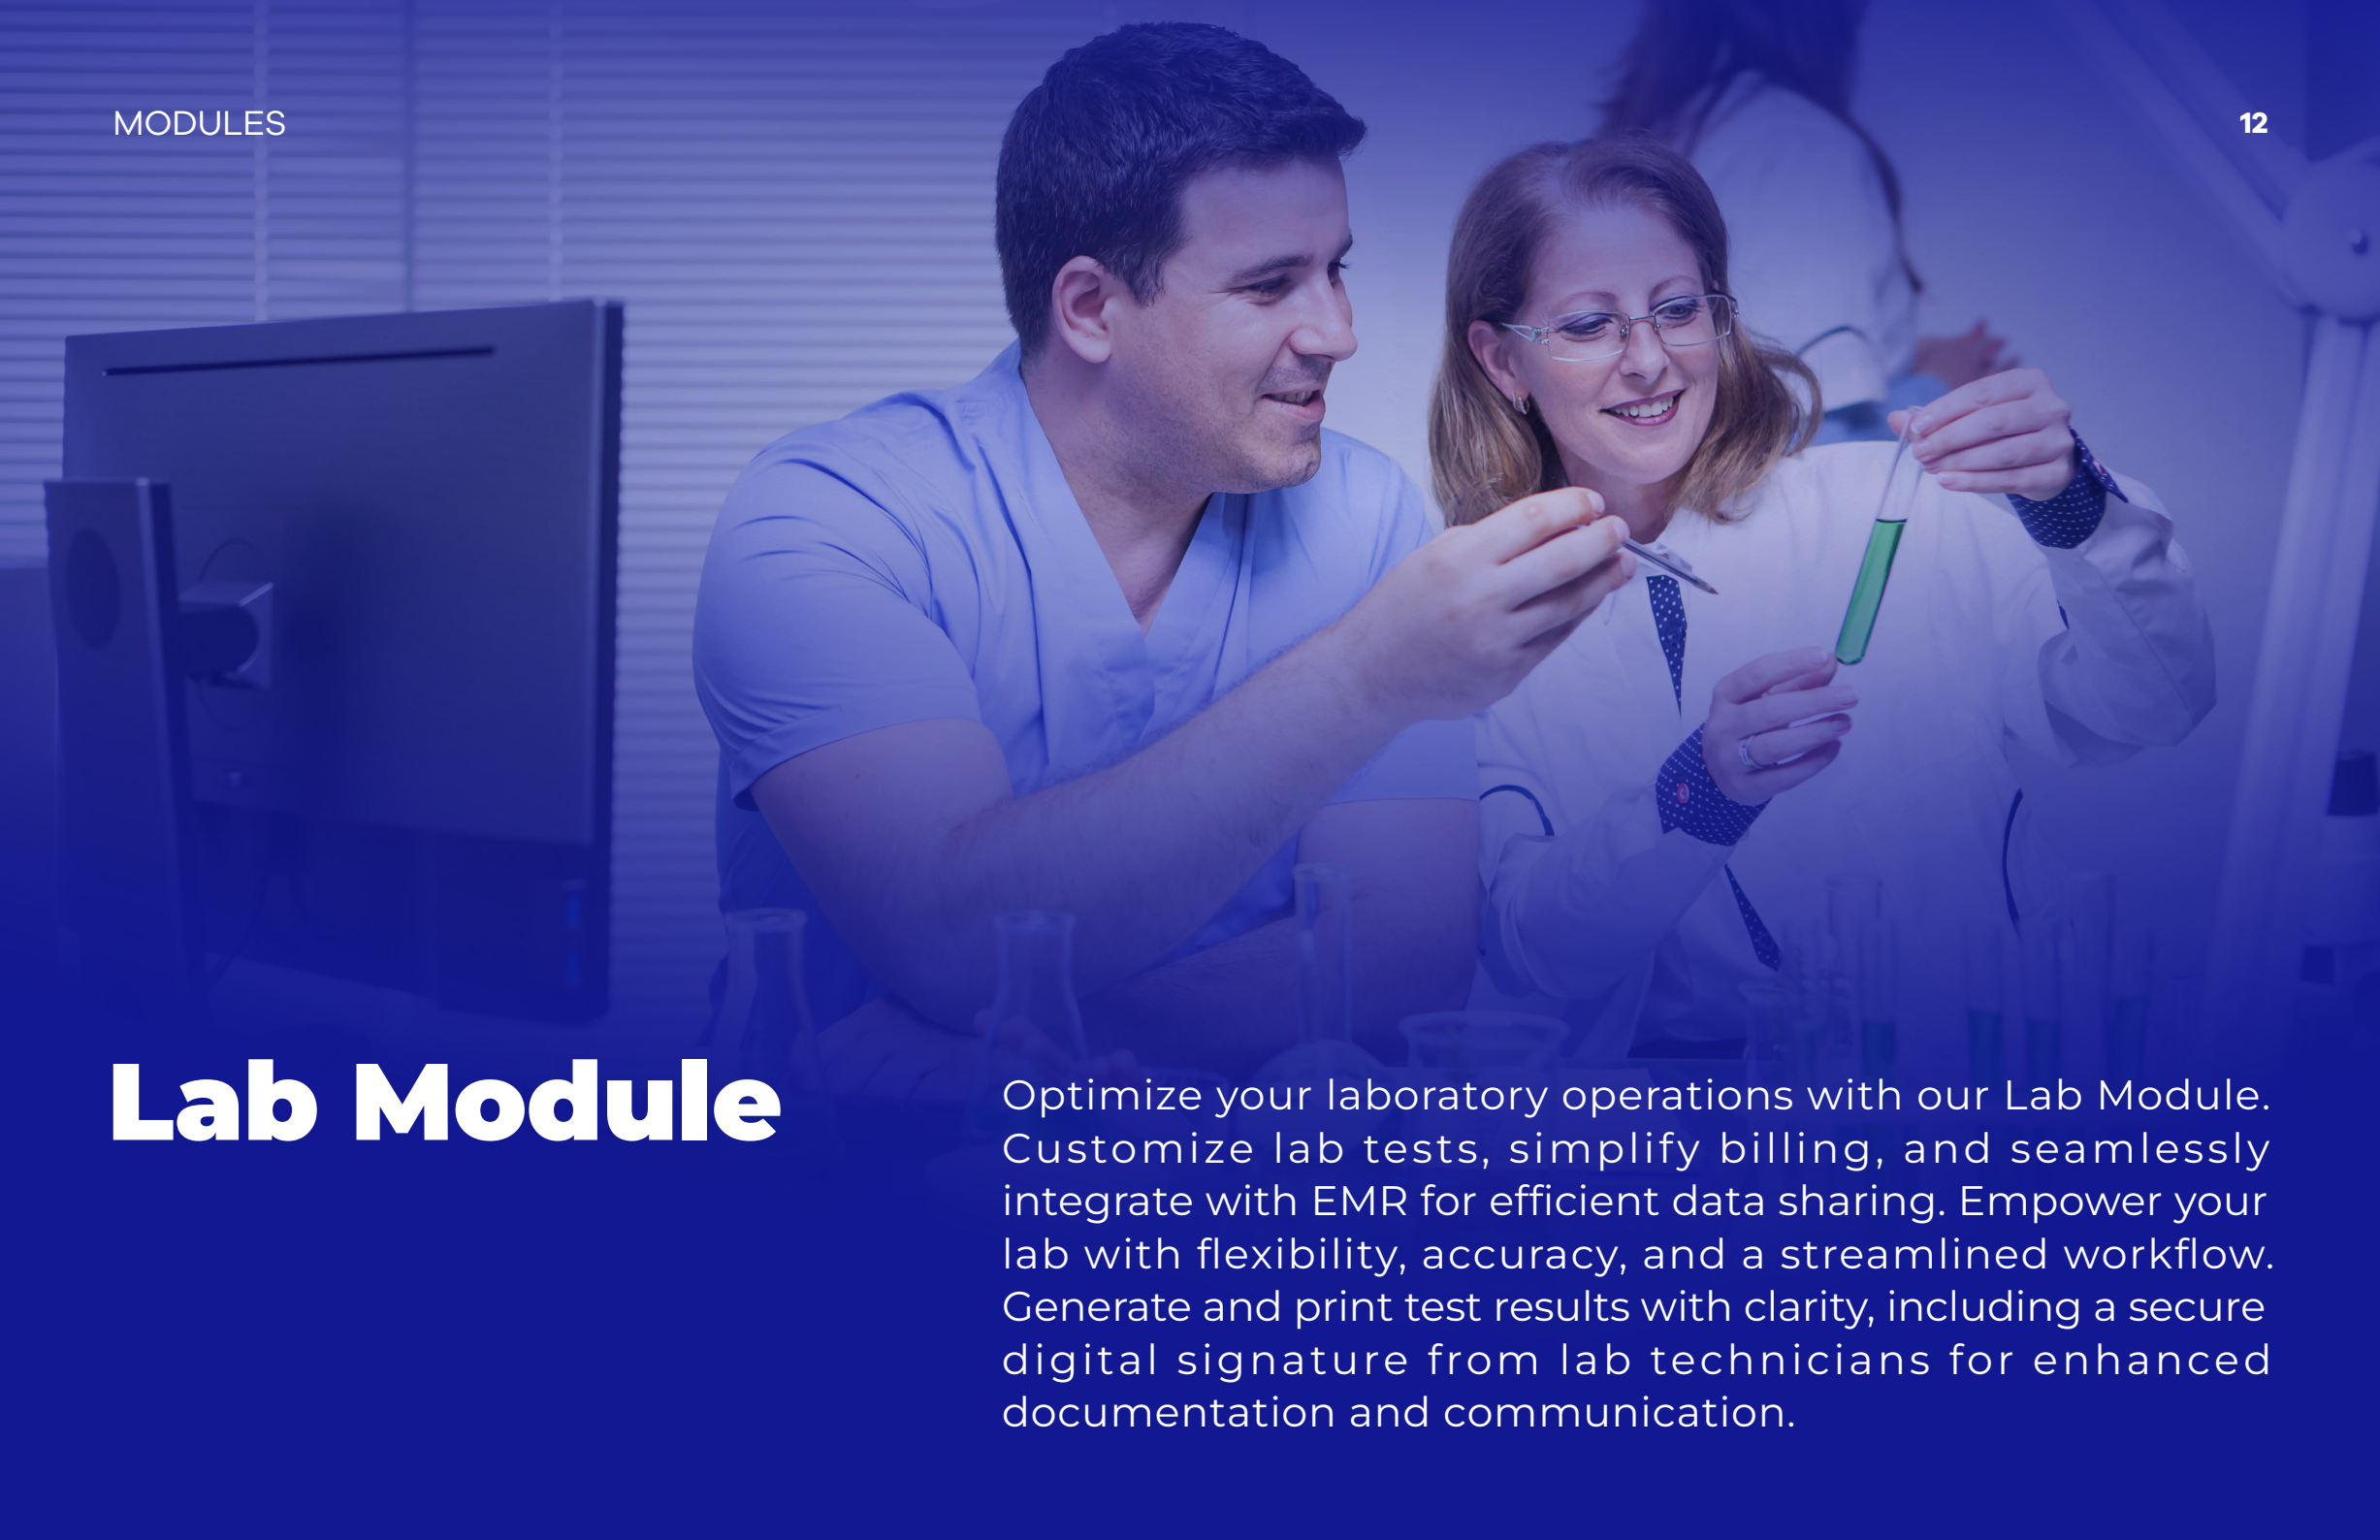

EMR & Doctor Module

Elevate patient care and streamline doctor efficiency with our EMR and Doctor Module. Seamlessly manage doctor visits, schedules, and booking slots. Customize EMR templates to match individual preferences. The real-time doctor dashboard provides instant metrics, while features like e-prescriptions, integrated services, and lab test requests sent from EMR to specific departments enhance overall efficiency, ensuring a cohesive healthcare experience.

Pharmacy Module

Revolutionize pharmacy operations from purchasing to sales with our streamlined Pharmacy Module. Efficiently manage suppliers, ensuring seamless GST-based billing. Precisely control batch-based stock with integrated EMR for one-click prescription fulfillment. Receive alerts for low stock and medicine expiry, optimizing inventory. The simplified billing interface accelerates sales, while one-click GST filing reports reduce manual processes by 50%, offering a revolutionary approach to pharmacy management.

Lab Module

Optimize your laboratory operations with our Lab Module. Customize lab tests, simplify billing, and seamlessly integrate with EMR for efficient data sharing. Empower your lab with flexibility, accuracy, and a streamlined workflow. Generate and print test results with clarity, including a secure digital signature from lab technicians for enhanced documentation and communication.

Service Billing Module

Enhance billing efficiency with our Service Billing Module. Simplify billing interfaces, streamline group billing, and seamlessly integrate with EMR for a cohesive healthcare environment. Enjoy the flexibility of a bill holding option and clear indications of patient outstanding amounts. Detailed reports with export options provide valuable insights for strategic planning, ensuring a comprehensive approach to healthcare billing.

Users & Role Management

Efficiently manage user roles, providing customized access for receptionists, nurses, practitioners, and more. Ensure precise access control, streamlining workflows and enhancing security. Organize users with roles, create customized roles, and set granular permissions for an efficient and secure user experience. Empower your team with role-specific capabilities, fostering collaboration and maximizing efficiency.

Reports & Data Analysis

Empower data-driven decision-making with our comprehensive Reports and Data Analysis features across all modules. Easily generate detailed reports with export functionality to Excel, providing invaluable insights for strategic planning. Customize reports with advanced sorting options for precise analytics, ensuring informed decision-making and facilitating targeted marketing strategies.

TAILORMADE SOLUTIONS FOR MANY

Showcasing Triumphs

A Glimpse into Our Successful Projects and Implementations

Aura Aesthetic Clinic, Qatar

Challenge

Struggled with insurance-based billing and streamlining claims for their dental and skincare practices, requiring a tailored EMR system.

Solution

Our smooth implementation refined billing, seamlessly integrated insurance processes, and introduced a customized EMR, enhancing efficiency for Aura Aesthetic Clinic's dental professionals.

Challenge

Faced the task of harmonizing operations across physiotherapy, consultations, pharmacy, and managing loyalty scheme-based billing for charitable initiatives.

Solution

Our comprehensive solution integrated every facet of Pattaniyil Medicare's practice. Since 2021, our automated billing module has streamlined loyalty programs and enhanced operational efficacy.

Pattaniyil Medicare, Kozhikode

Challenge

Needed a software solution to handle their unique workflow, including government filings and specific processes in psychiatric care.

Solution

We crafted an exclusive software solution for CHL, seamlessly integrating government filings and automating specialized psychiatric processes. Over the past two years, our tailored solution has significantly improved operational efficiency and data accuracy for the hospital.

CHL Psychiatric Hospital, Palakkad

India Federation Clinic-Uther Pradesh

Challenge

Struggling to provide affordable and accessible healthcare services to underserved communities, the clinic faced the added challenge of incorporating special discounts in every billing.

Solution

We addressed this challenge with a customized solution, introducing an exclusive Loyalty Program. This tailored approach empowered the clinic to efficiently manage diverse operations, ensuring not only cost-effectiveness but also enhanced service delivery to the community.

**Janatha Hospital,
Vadakara**

Challenge

Encountering difficulties in managing an all-department integrated system, Janatha Hospital specifically needed features to support diabetic treatment plans.

Solution

In response to this challenge, we developed a seamlessly automated system tailored to their requirements. To ensure smooth implementation, we provided exclusive staff training, addressing Janatha Hospital's need for a specialized and efficient solution in diabetic care.
